## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 18 and 19 to an invention non-elected with traverse. Accordingly, claims 18 and 19 been cancelled.

Authorization for this examiner's amendment was given in a telephone interview with Gabriela Coman on March 21, 2005.

A. In Fig. 1:

- a. Label element 10 with -- BEAM GENERATOR --;
- a. Label element 17 with -- CONTROL UNIT --;
- a. Label element 18 with -- COMPUTER --;
- a. Label element 19 with -- DISPLAY --;

No authorization for this examiner's amendment was given, although a copy of the figure with the corrections is attached.

*Allowable Subject Matter*

The following is an examiner's statement of reasons for allowance:

Regarding claims 11 and 20:

The primary reason for the allowance of claims 11 and 20 is the inclusion of an image display for displaying an observation image based on the detection of the secondary charged particle by the charged particle detector and a conductor probe transport mechanism for transporting the conductor probe, wherein the image display displays a position mark indicating the tip of the conductor probe. It is these features found in the claim, as they are claimed in the combination that has not been found, taught or suggested by the prior art of record, which makes this claim allowable over the prior art.

Claims 12-17 are allowed due to their dependency on claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

*Conclusion*

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Teresinski whose telephone number is (571) 272-2235. The examiner can normally be reached on M-F 8:30 - 5:00.
